

VACANCY

Mental Health Foundation has a vacancy for the full-time position of:

Social Worker

Job Purpose:

The Social Worker provides support and guidance to patients and their support systems in the areas of social and material issues to facilitate conditions conducive to effective care and progress. The role involves working closely with clients to help them manage social, economic and legal challenges, while participating in the development and execution of social care plans to improve patient outcomes.

Main responsibilities include:

- Client Guidance and Support
- Social Care Plan Development and Monitoring
- Administrative and Operational Support
- Multi-disciplinary Team Collaboration
- Psycho-education and Prevention
- Quality Care and Innovation

Profile

- A minimum of an MBO-4 qualification in Social Work or a related field is required, supplemented by at least five years of experience within a psychiatric or related mental health care setting, or a completed bachelor's degree in social work.
- Knowledge of mental health care processes, crisis protocols, social work practices and multicultural factors influencing treatment and participation in society is essential.
- Social skills such as tact, empathy, motivation, persuasiveness, and the ability to manage conflicting interests are required, combined with authority and strong communication skills when supporting and advocating for clients with social and psychological problems.

What do we offer:

MHF offers an opportunity to contribute to the further professionalization and development of mental healthcare on Sint Maarten within a dynamic and multidisciplinary environment rooted in compassion, professionalism, accountability, innovation, togetherness, and client-centered care.

Applicants interested in this position are invited to submit their motivation letter, Resume, diplomas and copy of their passport or Government Identification card via email cellis@mhf-sxm.com before **June 30, 2026**.
