

Mental Health Foundation (MHF) Sint Maarten

Vacancy Psychologist

The Mental Health Foundation (MHF) on Sint Maarten is a young and dynamic foundation developing and adjusting to the Mental Health needs on the island, including the surrounding islands. The Foundation offers a vibrant environment with multiple care products that requires initiative and innovation. For these reasons we have a vacancy for a Psychologist to provide care to the Community with mainly Mental Health challenges or disabilities.

Qualifications:

- A Master's degree or Doctorate in Clinical psychology specialization with Children and/or Adults.
- Must have experience working in a clinical setting.

Knowledge:

- Course work in CBT; preferably also system therapy
- Excellent communication skills, particularly the ability to communicate with children and/or adults of different ages from varied socio-economic and cultural backgrounds.
- Problem-solving skills in arriving at conclusions from a diagnosis and recommending appropriate treatment.
- Ability to conduct various assessments.
- Empathic quality in addressing the emotional needs of children
- Attend seminars and meetings about topics relevant to child psychology
- Adherence to professional, legal and ethical regulations, as required by relevant regulatory bodies and the law
- Patience and understanding when dealing with clients emotional issues
- Ability to motivate, encourage and portray an optimistic attitude.

Please send your motivation letter and CV with corresponding educational certificates to Human Resources Manager Mrs. Carina Ellis-Romney at cellis@mhf-sxm.com .For more information please visit our website: www.mhf.sx/vacancies
